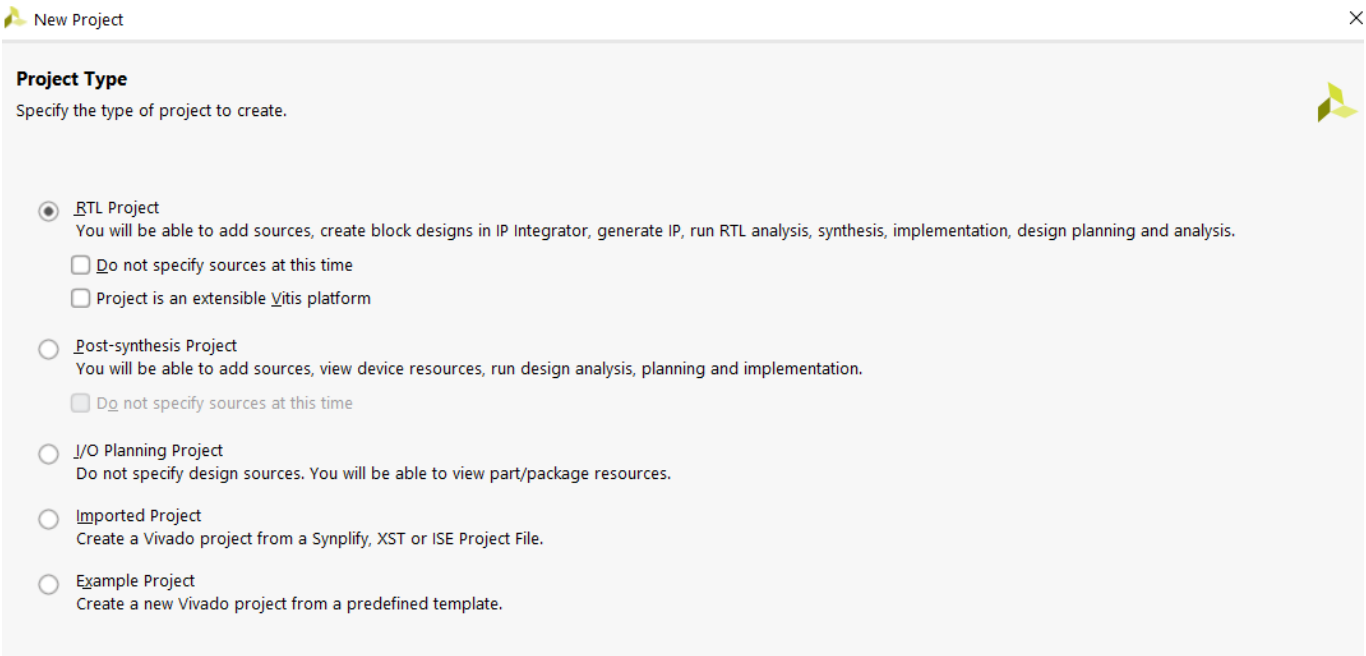
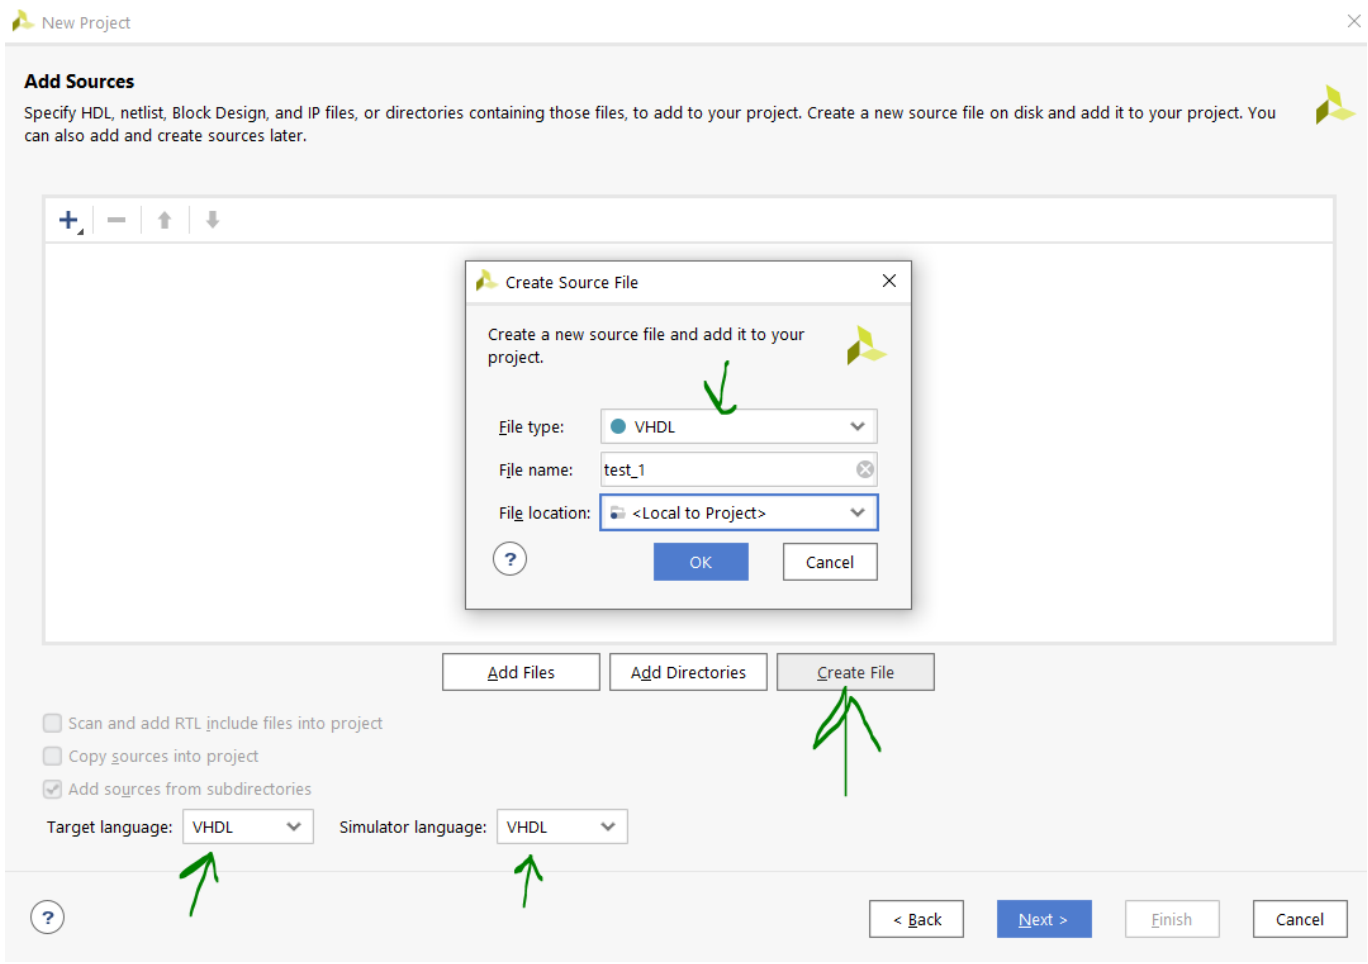
1. Create project and design





New Project
Add Sources
Specify HDL, netlist, Block Design, and IP files, or directories containing those files, to add to your project. Create a new source file on disk and add it to your project. You can also add and create sources later.

New Project
VIVADO HLx Editions
New Project Summary
A new RTL project named 'project_1' will be created.
1 source file will be added.
No constraints files will be added. Use Add Sources to add them later.
The default part and product family for the new project:
Default Board: Nexys A7-50T
Default Part: xc7a50ticsg324-1L
Product: Artix-7
Family: Artix-7
Package: csg324
Speed Grade: -1L
